

Prospectus

"The tutors at CTC are experts in academic studies. They are always eager to help when students face challenges in their studies"

CTC Alumnus, China

For over 60 years, Cambridge Tutors College has not only been one of the leading independent sixth-form colleges in the UK, but has also acted as a robust platform from which to introduce ambitious young adults from all over the world into the British education system.

Since 1958, our pursuit of excellence has largely focused on student welfare, personal development and a fully-integrated learning experience and by doing so we have consistently seen great aptitude and a well-rounded confidence in those that graduate from CTC, no matter their nationality, background or faith.

With our collegiate structure designed to emulate the UK's top universities, small class sizes and tutorial approach, we are more than just a school. Because our students are given the precise tools to achieve their academic goals and a longer-term success, we are an opportunity for them to thrive both under our care and in life beyond our doors.

Welcome to CTC.

Chris Drew
Principal

“The college is a diverse and vibrant international community in which students exhibit very high levels of mutual tolerance and respect.”

ISI Report

Education overseas

For six decades, CTC has welcomed students from countries such as China, Thailand, Russia and Nigeria as well as many from the UK and Europe too. We recognise and appreciate the high levels of trust that families across the world have continued to place in us to educate their children abroad, and the faith that the students have always had in our faculties to help shape their skills and behaviours so far away from home.

CTC is dedicated to creating a safe and adult-focused environment from which to develop the academic ability, life-skills and self-confidence required of students to be independent learners in higher education, and to achieve great success in any future career. Our diligence, expert support and friendly atmosphere all ensure that students are quick to settle in at CTC and therefore can immerse themselves in their studies faster.

We help register with doctors and dentists, set up bank accounts and purchase travel cards because we know that these are the simple things that are sometimes overlooked and yet make life in a foreign place that so much easier.

With the welfare of our students sitting at the heart of everything we do, parents and guardians are safe in the knowledge that their children are well looked after and, most importantly, they are happy whilst under our protection and care.

Why CTC?

CTC offers a comprehensive portfolio of A'Level and GCSE courses and our commitment to producing some of the best results in the UK is underpinned by a personal approach to teaching that creates a unique and world-class learning experience. We have a long history of academic success as a result of our small classroom sizes, excellent coaching and hands-on, tutorial style of mentorship. Combined with our expert UCAS guidance, it is no wonder that so many CTC students succeed in securing places at leading universities in Britain and further afield. We work hard to support each and every person throughout the university application process and we are well-equipped to lead these young adults towards the most appropriate decision when it comes to life's next chapter.

For decades, CTC has been the perfect stepping stone for thousands of students to enter into the realms of higher education and take with them a great confidence and enthusiasm for the challenges that lie ahead.

The Campus

CTC's parkland campus is situated on the outskirts of London in Croydon, Surrey, and benefits from excellent transport links into the capital. Our lively student hub occupies a compact yet fully-inclusive site with a multitude of well-resourced classrooms, purpose-built laboratories, an excellent library and learning resource facility, study areas, a student common room, cafeteria and music practice room.

In this era of enhanced technology, we continually invest much thought and resource in updating our campus amenities to better harness the opportunities on offer and lead the way for the industry as a whole. As a result, our students, staff, parents and alumni too can take advantage of the intelligent systems we put in place and enjoy an even greater experience with CTC.

Among South London's most promising international destination, we are a thriving community that forms the basis of a very unique and independent learning environment. It is here where we instil in young adults a desire to work hard, participate in social activities and generally enjoy life while at CTC, and as a result, we are rewarded with excellent grades, top university enrolment and, best of all, happy students as well.

Academic success

At CTC, we pride ourselves on a unique approach to secondary education and work hard to equip each and every student with the necessary skills and confidence to excel in their studies and life past our doors. With an average class-size of six, expert body of staff and an open, discussion-led setting, we apply a tutorial style of teaching and grant our students the maturity and respect that encourages young adults to do well. It is this collegiate-style learning environment that has seen fantastic success year on year, proven both by the legion of happy and well-balanced students that graduate from CTC as well as our long-standing history of exceptional academic results.

One/Two term term pre-sessional English

Month of start: **January/April**

IELTS Level:
3.5 - 6.0

Subjects available to study:

There are 22 hours of class time per week consisting 30 forty-five minute lessons divided into two main areas:

- General English 10 weekly periods
- Academic English and study skills: 20 weekly periods
- Three afternoons of activities

All students will be assessed towards the end of the course, and according to their English language level will be moved onto the appropriate course.

Pre-sessional courses can be standalone, or linked to GCSE or A-Level programmes.

Course Fees

Per-term:

- Tuition fees: £7,665
- Tuition and homestay: £10,640
- Tuition and boarding: £13,300

"Students exhibit high levels of self-esteem and self-awareness, and are supported individually and collectively by dedicated staff."

ISI Report

Pastoral support

There is a dedicated and very experienced welfare team in College to support each and every student to ensure they are happy, healthy and ready to make the most of all the opportunities available here at CTC.

In addition, each student is under the care of a Personal Tutor, who would normally be one of their academic staff. There are formal weekly meetings as well as additional one-to-one sessions, making sure all our students are closely monitored and supported to ensure they reach their full personal and academic potential.

Communication with home is very important, in addition to termly reports, there is close monitoring of both attendance and academic performance and parents are contacted immediately with any concerns. In addition to parents evening, parents are welcome to visit CTC at any time throughout the academic year.

Accommodation

Homestay and Boarding

“CTC has an outstanding educational system and is fully committed to academic excellence”

CTC Alumna, Thailand

Accommodation

CTC offers two different types of accommodation for our students: Boarding and Homestay. Only three minutes from the College, the purpose-built boarding facility “Wilson House” was first opened in September 2016 and has since become a popular choice for parents, but it is our renowned Homestay Programme that has been a huge success in housing our international students for over 30 years.

The Homestay Programme arranges for CTC’s students to live with trusted host families in the nearby area. A rare opportunity for young adults from overseas to immerse themselves in the homelife of a British family, the level of comfort and safety has been graded “Outstanding” in the Boarding Welfare Inspection. This unique experience works well to complement a student’s formal learning by offering a tranquil environment to not only study hard, but also to learn about British culture and considerably improve their English language skills at the same time.

Wilson House is a 35-bedroom facility that provides high specification en-suite rooms within a friendly communal environment. Unlike many boarding schools here in the UK, CTC offers a No Exeat Programme whereby students do not have to vacate their rooms during occasional weekends. This means that they, and their parents, have the year-round assurance that they can stay and be cared for 24/7 by the on-duty House Parents. These “exeat” weekends are traditionally expensive for parents or guardians who have to find alternative accommodation and can prove to be an unnecessary upheaval for the student. Therefore, we’ve found our No Exeat Programme to be an added benefit that provides greater peace of mind for both student and parent alike.

Homestay

Our Homestay students live with local families who have been carefully selected by the CTC Accommodation Officer. We have a variety of host families available who can offer different diets and facilities. The houses are located in good residential areas, either within walking distance or a short bus or tram ride from College.

Our welfare staff ensures that students are placed with the most suitable families for their needs based on their preferences. Students can choose whether they would like to be the only student in a home or to be placed with other CTC students, and if they would like a home with children or pets. They may alert us to any medical or dietary needs we may need to consider.

All students will be allocated their own fully furnished bedroom. Accommodation is on a half board basis during the week, which means students will be provided with breakfast and an evening meal every day and full board at weekends which includes lunch. The weekly rental includes a daily bath or shower and laundry is also included at least once a week.

We encourage students to develop self-reliance, confidence and increasing independence so that they are well prepared for university life and beyond.

Student Homestay survey results

December 2015

96.8% rate the host family great or good

96.9% rate being made to feel welcome as great or good

97.9% rate the comfort of their bedroom as great or good

96.5% rated the quality of breakfast as great or good

93.8% rated the quality of dinner as great or good

90.5% rated their host family as 8/10 or more

What positive things would you say about your host family?

Hostess is very caring about my safety – not only my safety but my personal feelings, makes me feel like I am living at home"

They make me feel at home"

The family is welcoming I feel I can rely on them when I need help"

Friendly, amicable, respectful, caring, attentive and understanding"

Easy going, nice people, caring and accommodating"

Boarding

CTC offers boarding as part of its accommodation package. Students board in a 35-bedroom residence; three minutes walk from college.

The Boarding House is part of the CTC Student Welfare department, and house parents will ensure all the needs of our students are met. If a student has queries or concerns they are dealt with quickly and efficiently to enable them to settle into life at CTC.

There is a real sense of community within the Boarding House. Students bond well, and regularly form life-long friendships due to the close-knit environment that is created.

Although recreational time is available, students are expected to continue their studies away from College and this will be an important fixture in their daily lives at CTC.

Each room is equipped with a comfortable bed, wardrobe and working space – so students can study in the comfort of their own room as they work towards fulfilling their academic potential.

During the week students will receive breakfast and evening meal in the boarding house whilst enjoying lunches served at college. At weekends, breakfast lunch and dinner are served to students.

The communal area in the Boarding House encourages students to mix with other boarders. There is also a kitchen area where snacks and drinks can be prepared.

CTC London

The College is situated on the outskirts of London – just twenty minutes by train from the heart of the capital city.

Croydon itself is undergoing a £1 billion redevelopment programme that will lead to new homes and an impressive new shopping centre. The vibrant, multi-cultural environment means there are many opportunities to fully sample life in London.

Croydon has excellent transport links provided by a network of trams, buses and trains. Central London (Waterloo, London Bridge and Victoria stations) is only a 15 minute train ride from East Croydon station. Trains depart to the centre of London every few minutes. London Heathrow Airport is less than an hour's drive and Gatwick airport is closer still – as little as 20 minutes by direct rail link.

Some of the world's most renowned universities are just minutes away.

London's **43 universities** form the largest concentration of higher education institutes in Europe
